

Jonathan Atikilt

jonathan.atikilt@scholar.smashprogram.org

EDUCATION:

Completed 1 year at University Preparatory Academy

Graduation Date: 07/06/2021

Pathway Focus: Actuarial Science

EXPERIENCE:

[Volunteer][Outreach Ministries: The Cathedral of Faith]

[Last 2 Spring Breaks]

[As a volunteer, you'd first start off stacking products of food, that would later on be placed in a cart. Afterwards, we'd have cars come into our parking lot, and we would give them the food the we placed in the carts before.]

[Cashier][Burger King]

[7/9-7/25(2018)]

[It was a boring and tedious job, that was for the sole purpose of money. I was very conflicted with the customers there, and although they came from many different backgrounds, they all had this common mentality to treat the cashier with utter disrespect.]

HONORS and AWARDS:

[Honor Roll][University Preparatory Academy]

[12/19/17]

[This award was given on the day before winter break, for students who achieved a 4.0 or above, which was extremely difficult at the time. Only a handful of students were able to complete this magnificent challenge]

[GATE(Gifted and Talented Education) Acceptance] [John Muir Middle School]

[9/28/16]

[This program was created for students who appreciated thinking outside the box. We would work on advanced problems for most of our classes, and would try to approach the problem from a different perspective.]

[ASB Election][University Preparatory Academy]

[5/26/17]

[I ran for the ASB 9th grade class rep, where with the help of my peers, attained the position. Some would say that this was just a popularity contest, but I believed that others see a leader in me; more than I could see in myself.]

SKILLS:

[Hobbies I have when I'm bored are playing video games, basketball, and surprisingly music. I love the trombone, which I've been playing for the last 4 years. Skills that I have aren't really life-based, but academically beneficial, like my great understanding for math.]
